

NETWORK UPDATE #3

By The Proj Team

Fabian is deep in the logistics of planning the Meet Ups for each group. To give you an idea of the scale of the task, there are negotiations going on with an accommodation partner to secure a group discount for the 73 rooms we will be booking over the next couple of months.

The Meet Ups are proving to be a highlight for the young creatives and is highlighting the value of these connections.

MEET UPS

The three Visual Arts groups came together to visit the Sydney Contemporary Art Fair. Supported by their mentors Karma Barnes, Stephen Bird and Isabelle Devos their time together included a curator's talk at the Olsen Gallery stall, which featured Stephen's works. This was also the first meet up to be filmed by Drew.

One participant got to visit her first art supplies shop ever, a pretty exciting moment, plus a bonus brush with fame as Hugo Weaving was spotted in the crowd.
